

## Rapid IIoT Solution Includes:

- **Tracking and Traceability**
- **Online Work Instructions**
- **Employee Verification**
- **42Q Live and Operations Dashboard**
- **Standard Reports & Cycle Time Report**

Some manufacturers have been slow to move from manual record keeping processes due to the degree of difficulty and the length of time involved in implementing eDHRs. 42Q has dramatically changed that equation with the Rapid eDHR solution, a Cloud-based platform that provides 21-CFR Part 11 compliance, supports employee validation in the manufacturing and testing processes, and provides enforced compliance in highly regulated manufacturing environments - all in just a few weeks.

## The Fastest, Easiest Way to Launch eDHR Quality Records

With the Rapid eDHR solution, you can jump-start your electronic record-keeping and begin to see advantages at your next compliance audit. The Rapid eDHR offering is part of the 42Q Cloud platform: a complete, scalable Cloud solution for managing global manufacturing operations.
